PROFESSIONAL SUMMARY

Engineer and MBA with 9 years across wealth management, automotive and enterprise software, transitioning into technical product management. Combines hands-on software development with client requirements analysis, cross-functional delivery and commercial research. Built two AI solutions subsequently adopted into Amundi Technology's production ecosystem. Brings technical depth and customer problem-solving to Technical Product Manager and AI Product Manager roles.

CORE SKILLS

PRODUCT Requirements Definition · Backlog Prioritisation · User Story Writing · Delivery Governance · SLA Ownership · Stakeholder Management

AI / GENAI Python · LangGraph · RAG · pgvector · Multi-agent AI · FastAPI

ENGINEERING & TOOLS Java · Spring Boot · AWS · Docker · REST APIs · UiPath / RPA · Jira · Confluence

DOMAIN Wealth Management Technology · Automotive Lifecycle & Pricing · Enterprise SaaS

EXPERIENCE

Full Stack Developer / Business Consultant — AI Product Initiatives Sep 2024 – Present
Aixigo / Amundi Technology | Aachen & Düsseldorf | Clients: BNP Paribas, Raiffeisen, Radicant

- Serve as primary technical and functional contact for BNP Paribas, Raiffeisen and Radicant on BLOXX — investigate client problems, clarify feature requests, translate requirements for engineering teams and coordinate resolution of platform issues.
- Identified recurring support bottlenecks through consultant and ticket-workflow analysis; translated user needs into requirements and built Aiden, a multi-agent GenAI solution that increased weekly ticket resolution from 2–3 to 6–7 and was incorporated into Amundi's Cockpit.
- Co-developed NarrativeAI in a five-person hackathon team, converting an advisor workflow need into a solution that generates wealth-management narratives in under 60 seconds; the concept was subsequently taken forward for Amundi's production advisory platform.

Market Analyst — Automotive Intelligence Platform May 2023 – May 2024
BF Analytics | Flensburg, Germany | Clients: Range Rover, Volvo, Kia, Skoda

- Led a EUR 120K residual-value study for two pre-release Skoda models across Germany, Poland, France and the UK — analysed product attributes, used-car dynamics, brand perception, pricing and economic conditions to deliver 3-year and 5-year depreciation forecasts and recommendations to Skoda's Global RV and Used-Car leadership.
- Gathered primary market intelligence at European motor shows and translated findings into pricing recommendations and lifecycle benchmarks for client studies.

Software Consultant & Assistant Project Manager Jun 2021 – Apr 2023
DXC Technology | Milan & Bologna, Italy | Clients: Ferrari, CNH Industrial

- CNH Industrial: Translated business requirements into features supporting vehicle forecasting, manufacturing planning, supply chain, procurement and financial planning within a legacy enterprise application.
- CNH Industrial (RPA Team Lead): Led a team of 5 in an RPA automation programme — restored SLA compliance within 2 months, resolved active customer complaints and helped junior team members remove delivery blockers.
- Ferrari (Assistant PM, simultaneous): Supported application delivery by defining use cases, goals and data requirements, coordinating onsite and offshore developers and tracking weekly progress.

Post-MBA Career Transition

Jun 2020 – May 2021

Italy | European job search during the COVID-19 hiring disruption

Product & Market Research Internships

Jun 2019 – May 2020

Schneider Electric (HVAC) & Magneti Marelli (Automotive) | Bologna & Belluno, Italy

- Schneider Electric: Synthesised customer and market requirements into recommendations for commercial HVAC product-line decisions.
- Magneti Marelli: Conducted India market-entry research and presented demand analysis and pricing recommendations to the APAC product strategy team.

Software Developer

Feb 2015 – Aug 2018

Cognizant Technology Solutions | Chennai, India | Clients: British Gas UK, Centrica UK

- Developed customer-facing British Gas website features, an internal data-transfer pipeline and an automated software-update capability for electric meters during a 3.5-year engagement.

EDUCATION

Global MBA — Automotive & Mobility Strategy

Sep 2018 – May 2020

Bologna Business School | Bologna, Italy

- Product strategy · Go-to-market · Automotive lifecycle economics · Pricing models · Business development

B.E. Mechanical Engineering

2010 – 2014

Anna University | Chennai, India

CERTIFICATIONS

- Generative AI for Product Managers — IBM (2025)
- Prompt Engineering for Developers — DeepLearning.AI (2024)
